TWINWOOL 40

Description

A superior sustainable, woolen upholstery fabric. Twinwool is produced using washed-up ocean plastic. Impassioned volunteers collect the plastic waste from ocean beaches, river banks and in coastal communities. Using an innovative recycling process, this is then made into Bionic® yarn. In combination with a superior quality wool, also used in Ploegwool, this forms the basis of our sustainable upholstery fabric Twinwool. This unique twine gives the fabric a stunning duo-tone effect, and a very special story, unique in its kind.

Specifications

Part ID	0400140040
Composition	70% virgin wool, 30% recycled polyester
Width (cm)	140 cm
Weight (g/m1)	1000 g/m1
Lightfasness (scale 1-8)	5
Pilling	4-5
Wear resistance	100000
Flameretardant	Yes
Certifications	OEKOTEX
Color variants	25
Shrinkage (%)	1%
